

Notice on Health Certificate Delay

Dear students who are now job-seeking out of campus,

Due to COVID-19 pandemic, students' medical checkup will be postponed.

Therefore, publishing the formal health certificate will also be significantly delayed.

Please wait for the medical checkup held in campus although such job-seeking students need to submit their health certificate to each company they apply for. New schedule of the medical checkup will soon be announced.

MuroranIT also informs companies of the delay through our website. You can download the document for companies below.
